## PROPOSED SAILINGS FROM HONGKONG.

"COPTIC".....	4,352 Gross Tons.....	WEDNESDAY, 9th December, at Noon.
"AMERICA MARU".....	6,307 ".....	FRIDAY, 18th December, at Noon.
"KOREA".....	11,276 ".....	SATURDAY, 26th December, at Noon.
"GAELIC".....	4,205 ".....	SATURDAY, 2nd January, 1904, at Noon.
"HONGKONG MARU".....	6,307 ".....	SATURDAY, 9th January, at Noon.
"CHINA".....	5,060 ".....	TUESDAY, 19th January, at Noon.
"DORIC".....	4,784 ".....	FRIDAY, 29th January, at Noon.
"NIPPON MARU".....	6,307 ".....	SATURDAY, 6th February, at Noon.
"SIBERIA".....	11,284 ".....	SATURDAY, 13th February, at Noon.

Record Trip Yokohama to San Francisco made by s.s. "KOREA," 11,276 tons, Oct. 18th-28th, 1902; 10 days, 15 hours.

The O. & O. Company's Steamship "COPTIC" will be despatched for SAN FRANCISCO, via SHANGHAI, NAGASAKI, KOBE, INLAND SEA, YOKOHAMA, and HONOLULU, on WEDNESDAY, the 9th December, at Noon, taking Freight for Japan, the United States, and Europe. Passengers are allowed to break their journey at any point en route.

Through Passage Tickets granted to England, France and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada. Passengers holding through ORDERS TO EUROPE have the choice of the Overland Rail Routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAILWAY; also the CANADIAN PACIFIC RAILWAY on payment of £4 in addition to the regular tariff rate.

Passengers holding Orders for OVERLAND CITIES in the United States have between SAN FRANCISCO and CHICAGO, the option of the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and other direct connecting Railways, and from Chicago to destination the choice of direct lines.

Special rates (first-class only) to European Ports, are granted to Missionaries, Members of the Naval, Military, Diplomatic and Consular Services, and European Civil Service Officials located in Asia, and to European Officials in the Service of the Governments of China and Japan.

TO UNITED STATES AND CANADIAN PORTS, Special rates (first class only) are confined and will apply only to Missionaries, Members of the Naval and Military Services, and to Consular and Diplomatic Officials of the Governments of China and Japan.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports, to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway, to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Companies' and connecting Steamers.

## FEATURES OF THIS LINE.

The largest and steadiest passenger ships on the Pacific. Southern Route; passengers enjoy out-of-doors throughout; deck bathing. The call at Honolulu, Oahu, the most fertile and beautiful island of the Pacific. The only line to San Francisco, the greatest port of the Pacific. The only line to Hawaii, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Companies' and connecting Steamers.

For further information as to Passage and Freight, apply to the Agency of the Companies, Queen's Building.

J. STUART THOMSON, Acting Agent.

Hongkong, 3rd December, 1903.

CANADIAN PACIFIC RAILWAY COY.'S  
ROYAL MAIL STEAMSHIP LINE.

## SAFETY. SPEED. PUNCTUALITY.

THE FAST ROUTE BETWEEN CHINA, JAPAN AND EUROPE, VIA CANADA  
AND THE UNITED STATES.

(CALLING AT SHANGHAI, NAGASAKI, KOBE, YOKOHAMA & VICTORIA, B.C.)

"EMPRESS" Twin Screw Steamships—6,000 Tons—10,000 Horse Power—Speed 19 Knots.

## PROPOSED SAILINGS FROM HONGKONG.—(SUBJECT TO ALTERATION).

R.M.S. "EMPRESS OF JAPAN".....	6,000 Tons.....	WEDNESDAY, 16th December.
"EMPRESS OF CHINA".....	6,000 ".....	WEDNESDAY, 13th January, 1904.
"ATHENIAN".....	3,882 ".....	WEDNESDAY, 27th January.
"EMPRESS OF INDIA".....	6,000 ".....	WEDNESDAY, 10th February.
"TARTAR".....	4,425 ".....	WEDNESDAY, 24th February.
"EMPRESS OF JAPAN".....	6,000 ".....	WEDNESDAY, 9th March.
"EMPRESS OF CHINA".....	6,000 ".....	WEDNESDAY, 30th March.
"ATHENIAN".....	3,882 ".....	WEDNESDAY, 27th April.
"EMPRESS OF JAPAN".....	6,000 ".....	WEDNESDAY, 11th May.

THE magnificent "EMPRESS" Twin-screw Steamships of this Line pass through the famous INLAND SEA OF JAPAN, and usually make the voyage YOKOHAMA TO VANCOUVER (B.C.) in 12 DAYS, ("TARTAR" and "ATHENIAN" 14 DAYS), saving THREE DAYS TO A WEEK in the Trans-Pacific journey, and make connection at Vancouver with the PALATIAL OVERLAND TRAINS of the CANADIAN PACIFIC RAILWAY which leave daily, and cross the Continent FROM THE PACIFIC TO THE ATLANTIC WITHOUT CHANGE. Close connection is made at Montreal, Quebec, Halifax, New York and Boston with all Trans-Atlantic Lines, which passengers to Great Britain and the Continent are given choice of.

Passengers Booked through to all principal points and AROUND THE WORLD. Return tickets to various points at reduced rates, Good for 4, 6, 9 and 12 months.

SPECIAL RATES (First class only) granted to Missionaries, Members of the Naval, Military, Diplomatic and Civil Services, and to European Officials in the Service of China and Japan Governments.

The attractive features of the Company's route embrace its PALATIAL STEAMSHIPS, (second to none in the World), the LUXURIANCE OF ITS TRANS-CONTINENTAL TRAINS (the Company having received the highest award for same at Chicago World's Exhibition), and the diversity of MAGNIFICENT MOUNTAIN AND LAKE SCENERY through which the Railway passes.

THE DINING CARS AND MOUNTAIN HOTELS of this route are owned and operated by the Company, and their appointments and Cuisine are unexcelled.

For further information, Maps, Guide Books, Rates of Passage, &c., apply to

Hongkong, 1st September, 1903.

entrance, top 95 ft.; bottom 75 ft.  
Water on blocks, 27.5 ft. Time to  
pump out, 4 hours.

## No. 2 DOCK.

Length inside, 375 ft. Width of  
entrance, top 60.5 ft.; bottom 45.8  
ft. Water on blocks, 26.5 ft. Time  
to pump out, 3 hours.

THESE DOCKS are conveniently situated in Yokohama harbour and the attention of  
Captains and Engineers is respectfully called to the advantages offered for Dock-  
ing and repairing Vessels and Machinery of every description.

The plant and tools are of recent patterns for dealing quickly and cheaply with work,  
and a large stock of material is always at hand, (plates and angles all being tested by  
Lloyds' surveyors).

Two powerful Twin Screw Tugboats are available for taking Vessels in or out of  
Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable  
of lifting 35 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge  
Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be  
guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that  
of any port in the world.

Single Copies Daily, ten cents; Weekly, twenty-five cents.

## The Hongkong Telegraph

HONGKONG, MONDAY, DECEMBER 7, 1903.

## OUR TWO NEW BATTLESHIPS.

The news that reached us a few days ago to the effect that the Government had purchased two Chilean war-ships came as a surprise to many, and undoubtedly gave cause to some speculation as to the probably urgent reasons which had decided the authorities to take so unprecedented a step. Whether this action was taken to avoid the acquisition of these fine vessels by Russia, or if it be due to some grave political complication as yet unknown to us, it will be of undoubted interest to consider the following information concerning the importance of these two new additions to our fleet. The names of these ships, which were originally built to Chilean order by two well known English firms, Vickers and Elswick, are respectively named the *Constitution* and the *Libertad*; though whether their names will be changed to the English equivalents or to others more in keeping with the style of British nomenclature remains to be seen. They come within the category of first class battleships and may be compared to the *Abdion* and *Vengeance* in fighting value, as they are very similar in construction and armament. As regards speed, they have an indicated horse-power of, roughly speaking, 12,500 and a displacement of about 12,950 tons and this, in conjunction with their special form of hull, should give a speed of something over nineteen knots. Their normal coal capacity is about 800 tons in time of peace, while, on emergency, i.e. in war time, they could stow 2,000 tons, which may be regarded as an auxiliary armour eight feet thick on the waterline. As armament they carry two ten-inch guns forward and two aft; these are protected by turrets eight inches thick. On either side of them are 7.5 in. guns flanking the turrets, and a couple of the same calibre guns immediately in the rear. Thus the ships show an enormously heavy armament, to front and rear, of two ten inch and four 7.5 inch guns, well protected. On their broadside they mount three 7.5 inch guns either side protected by the battery, bringing their total armament in heavy guns up to four ten inch and fourteen 7.5 inch guns. The positions in which these guns are mounted enable them to bring to bear on the broadside a total of four ten inch and seven 7.5 inch. Their lighter armament consists of fourteen 14 pounders, four 6 pounders and four maxims. The torpedo armament consists of two eighteen inch submerged torpedo tubes and the Chilean torpedoes are said to have a somewhat longer range than our own. Passing on to the protection, we find that there is a seven inch belt amidships, tapering to three inches at each end and a protective deck amidships one and a half inches thick; the vitals are enclosed in a sort of large tank, so to speak, seven inches thick and a bulkhead, or partition, of six inches. The guns are protected by barbettes and casemates in the immediate vicinity of the gun itself, and the battery walls and battery screens between them (the casemates of which there are four standing one in each corner of the battery), are seven inches thick as also are the battery walls. The screens between the guns are one inch, while the barbettes and turrets are eight inches in thickness. The heaviest armour is round the conning tower, which being eleven inches thick brings the total weight of armour up to three thousand two hundred tons. At a range of about eight thousand miles the *Abdion* class of ship could maintain a speed of ten knots and, as these two ex-Chilean battleships have about the same coal capacity and speed, it is to be presumed that they could do about the same. It was rumoured that Russia had made an offer to purchase them, therefore, our Government is to be congratulated on having removed the temptation and appropriated to itself a couple of first class battleships thoroughly modern and exceptionally fortunate in design. It is more than probable that one of these vessels will shortly be commissioned on the China Squadron.

## LOCAL AND GENERAL.

MR. E. A. GRIFFITHS is the new British Consul at Kobe.

A FATAL (Chinese) case of plague is reported as having occurred during the past twenty-four hours at 8, Second Street.

THE Shell liner *Elax* which went ashore near Yokosuka when outward bound, on the 20th ult., was floated and returned to Yokohama on the 23rd.

SIR MATTHEW NATHAN, K.C.M.G., the Governor-designate of Hongkong, is still at the Gold Coast, where he will probably remain until February next.

U HAN-YEN, one of the murderers of the Queen of Korea in 1895, has at last been tracked down and assassinated by two of his countrymen at the Japanese naval station, Kure.

THE river gunboat "B" presented by Germans living abroad to the German navy, and built for them by Schichau, at Elbing, is ready for her trials, after which she will be sent out in sections to China.

THE *Japan Times* says: "The nation is ready, the nation yearns for action and we sincerely hope that the Imperial Government will not betray the grave responsibility with which a unique conjunction of circumstances has invested it."

MR. JOSEPH GILLOTT, of Warwick, senior in the firm of Messrs. Joseph Gilloft and Sons, steel pen manufacturers, who died on July 3 last, aged 76 years, left estate of the gross value of £163,505, and the net personalty, has been sworn at £76,809.

THE engagement is announced of Mr. Antony George Methell, Chinese Imperial Customs, youngest son of Mr. Henry Slingsby Bethell, and Miss Frances Langdon, daughter of the late Mr. Henry Carmichael Langdon. The marriage will take place at Mezzanotte, near Florence, in January.

THE Admiralty have placed with Palmer's Shipbuilding Company, Jarrow, orders for three new torpedo-boat destroyers. The vessels will be similar to the six now being built by Palmer's Company except that the engines will have the company's patent system of forced lubrication, which was adopted in H.M.S. *Sjerna* with excellent results.

COMMANDER GEORGE MURRAY KENDALL Fair, of the Naval Intelligence Department, died on 3rd ult., from an attack of typhoid fever. He entered the service as a cadet in January, 1883, was lieutenant of the *Centurion* during the Boxer outbreak in China in 1900, and during Admiral Sir Edward Seymour's expedition in June was employed on the staff of the Intelligence Department, and getting along the junks with wounded. In September he was appointed flag-lieutenant to the Admiral.

THE Admiralty announce that his Majesty George, King of the Hellenes, K.G., has been appointed Honorary Admiral in His Majesty's Fleet. The distinction which has now been conferred on King George is the same as was bestowed on the King of Portugal last month, and on Prince Henry of Prussia two years ago. The only other foreign officers of the Navy are the German Emperor, who has held the highest rank—that of Honorary Admiral of the Fleet—for four years, and Prince Charles of Denmark, who is a lieutenant, and can hardly be regarded now as a foreigner.

MR. L. A. WILKIE, representative of Arthur Hill Vaudeville Company, has arrived in our port from Shanghai. This gentleman has come to make the necessary arrangements for the appearance in this city of the troupe, which is at present terminating a series of successful representations at the Lyceum Theatre of the northern port. The criticism of our Shanghai contemporaries are very favourable to the Company so that it is more than probable that it will meet with the hearty support of the Hongkong public. The troupe will give ten performances in our city, opening their season on the 23rd December next at the Theatre Royal.

THE King received in the grounds of Buckingham Palace on 4th ult. 143 officers of various ranks connected with the Transport Service, and conferred upon them the Special Transport medal, which was instituted by His Majesty in 1902 for officers of the mercantile marine, in recognition of the efficiency with which the transport of the troops by sea was carried out during the South African and China Wars. Amongst those present were: Rear-Admiral Sir E. Chichester, Bart., C.B., C.M.G., Capt. J. B. Eustace, R.N., late Principal Transport Officer, North China, Mr. W. Keswick, M.P., and Sir Thomas Sutherland.

ADMIRAL Superintendent Henderson on 2nd ult. inspected the *Centurion*, which was passed into the Fleet Reserve, ready for hoisting the pennant on 3rd ult. On that day she was commissioned at Portsmouth by Captain F. F. Fegen for service on the China station. Since her return from her last commission, when she was the flagship of Admiral Sir E. H. Seymour, the *Centurion* has undergone an extensive refit, including the substitution of 6 in. for the 4.7 in. guns. With the arrival of the *Centurion* on the station the Commander-in-Chief will have five battleships and two armoured cruisers under his orders. She will have a complement of 600 officers and men, her crew includes a number of seamen gunners who have been trained at Whale Island, under the direction of Captain Percy Scott, the head of the Naval Gunners School at Portsmouth. It is probable that the *Centurion* will be introduced on board the *Centurion*—E.S.

HERB Ballin, General Manager of the Hamburg-America Line, is proceeding to New York in connection with the Morgan Shipping Trust.

AMONGST the guests who were present at the China Association annual dinner held at Whitehall Rooms on Nov. 17 were Earl Percy, Admiral Sir E. H. Seymour, and Admiral Sir Gerard Noel. Sir Alfred Dent, K.C.M.G., presided.

A NEW YORK wire states the Navy Department has ordered the *Illena* and *Pompey* to winter at Newchwang. If Russia should ask the reason the answer will be the same as when she inquired why the *Vicksburg* wintered there two years ago, viz. that American interests needed it, and why did Russia put the question.

AMONG the arrivals per the P. & O. s.s. *Simla* to-day were Major-General Hutton, who succeeds Major-General Sir W. J. Gascoigne as General Officer Commanding, and Mr. R. Ponsbury, who has been private secretary to Sir West Ridgeway in Ceylon and who now takes up the appointment of private secretary to the Officer Administering the Government in this Colony.

PROMINENT bankers and railroad men in New York have formed a new company for railroad development in the Chinese Empire. The company, which has already been incorporated under the laws of New Jersey, is called the China Investment and Construction Company of America, and has a capital of \$1,000,000. The charter, however, provides that the capital stock can be increased from time to time.

A LONG drawn out lawsuit is now nearing its final stage at Manila. The litigation is between the Hongkong Bank and the firm of Jurado & Co. The firm has been in liquidation since 1884, when litigation arose. The liquidator died in July last. The Supreme Court at Manila decided that this could not interfere with the progress of the case, as Jurado and Company, not the liquidator, is the defendant. A motion by the plaintiff corporation that a day be assigned for hearing the case has been decided upon favourably. The case is set for hearing next January.

THE Admiralty have issued for general information a return of the annual prize-firing from heavy guns in His Majesty's Fleet during 1902, giving a list of the ships in order of merit, and showing the average relative results for each class of gun. For the 12 in B.L. guns the *Ocean* came out first of nineteen vessels with average relative results per gun of 70.131 for the 9.2 in. guns the *Grey* was second out of four vessels with average relative results per gun of 35; and for the 6 in. quickfiring guns the *Ocean* was first out of forty-eight vessels with average relative results per gun of 102.73.

FROM *Straits Times* (Nov. 28).—When Sir Henry and Lady Blake arrived here on Thursday morning en route for Ceylon, a number of Ceylonese residents were at the wharf to greet the new Governor of the Colony. Furthermore, when the *Maitland* sailed yesterday morning, there was a similar gathering of Ceylonese to wish the distinguished passengers farewell, and before the ship left Miss Sibyl Gunatillake, daughter of the P. & O. Company's wharf manager, who belongs to Ceylon, presented a handsome bouquet to Lady Blake, who expressed much pleasure at receiving the gift.

## ROUGH WEATHER AT SEA.

ARRIVAL OF THE OVERSEA MAIL.  
The heavy monsoon now prevailing on the China Sea is playing havoc with steamers coming up from Singapore nearly every vessel making port from the South being considerably delayed and, in many instances, bearing evidence of their encounter with the waves. The non-appearance of the P. & O. s.s. *Simla* on Saturday and Sunday caused some anxiety, having regard to the punctuality of these steamers, and had she not arrived to-day vessels would have been despatched to ascertain whether she needed assistance. Fortunately, there was no necessity for such a step to be taken, as at seven o'clock this morning a message was received from the Gap Rock signal station reporting the passing of the vessel and, two hours later the *Simla* steamed into port after a prolonged voyage up from Singapore. She left the southern port at five o'clock of the afternoon of the 29th ult. and a few hours out encountered an exceptionally strong north-easterly monsoon with mountainous seas. Cap. C. D. Goldsmith kept her head straight in the teeth of the gale, and although she was being run at full speed the force of the wind and seas beating against her made progress very slow; indeed, her speed averaged about 130 knots a day. The *Simla*, however, weathered the storm with sustaining any material damage, only an anchor crane forehead being slightly broken.

THE "GLENHARRY" IN THE GALE.  
The s.s. *Glenharry*, that followed the *Simla* up from Singapore, suffered severely and the officers and passengers underwent a terrible experience, the memory of which will abide with them for some time to come. Shortly after their departure from that port a N.E. gale of abnormal severity was encountered and a continuous high head sea, washing the vessel fore and aft, did considerable damage. The ship laboured heavily and rolled repeatedly to a dangerous angle. The sky was completely overcast, and violent gales with blinding rain endured throughout the passage. Owing to the ceaseless rolling and pitching all the passengers were confined to their cabins by sea-sickness, even the most experienced sailors amongst them paying toll to the fury of the elements. The captain, officers and crew worked untiringly, and it can be stated that it was entirely due to their pluck and endurance that a catastrophe was averted.

A portion of the cargo, which had been stowed on the arrival of the vessel at Singapore, shifted when the steamer was four days out, dashing from side to side at every motion of the ship. This continued to within a few hours of port and the results would have been disastrous had it not been for the able direction of Captain Willy, and the constant and zealous attention of his subordinates. During the struggle carpenter Oliver was somewhat seriously injured. Captain Willy had a terrible time throughout the trip, only leaving the bridge now and again to go and assure himself that the work on the cargo was proceeding. As if to add to the trying anxiety and continued strain of his sleepless vigil, he was deprived of the services of his able chief officer, Mr. D. R. Corke, who was laid-up and unable to move owing to his foot having been smashed at boat-station drill on the outward voyage. Bashed and battered, with funnel and stays white with the brine from the spindrift, the *Glenharry* steamed into Hongkong this morning, officers and passengers alike congratulating themselves on having weathered successfully one of the severest monsoons on record.

## CROWN LAND SALE.

Not much interest was evinced in the sales of Crown land announced for this afternoon at the Public Works Department. The attendance was small, and there was hardly any competition in biddings.

SHAUKWAN I. L. 1708.

When Island Lot No. 1708, situated on the Shaukwan Road, Causeway Bay, and containing an area of 18,896 square feet, was put up, it was discovered that the applicant for the lot did not appear and the property was accordingly withdrawn. The deposit of \$100 was forfeited to the Crown.

## NEW TERRITORY.

Three separate lots in the New Territory came under the hammer this afternoon. They are Tai Po Island Lots 1 and 2 and New Kowloon I. L. No. 4. The first two were sold in one lot, and contain respectively 4,591 and 468 square feet. A Chinaman was the purchaser at \$60 (i.e. \$10 above the upset price) for the combined areas. Attaching to the first lot is the special condition that a nominal sum of \$1 per annum shall be paid for the right to use the water of the stream to drive one or more water wheels, and for the right to construct such channels over Crown land as may be necessary to enable this to be done.

The lot in Kowloon Tong has an area of 18,000 square feet and the annual rental payable in respect thereof is \$42. It was knocked down to a French gentleman for \$770; the reserve was \$540. A Chinaman was also a bidder for this fancied site.

## CHINESE LABOUR FOR SOUTH AFRICA.

The report of Messrs. Skinner and Noyes, who were sent to China by the Transvaal Chamber of Mines, to inquire into the question of Chinese labour, is now made public. The results of the investigation of these gentlemen are briefly outlined in the following statement:—  
Mr. Skinner and Mr. Noyes were sent to inquire into the question of Chinese labour. The delegates report that the coolies from the Southern Provinces of China, who are also employed in British Columbia and California, are as efficient as Kaffir labourers, and that they have received equally satisfactory accounts of the coolies from Northern China. In order to ascertain whether the north or the south would supply the most suitable miner, the Chamber of Mines Delegates advise a trial with 1,000 to 1,500 Chinese from each district. A firm at Hongkong has declared its readiness to obtain these numbers at 30 days' notice, and to place them on board for trans-shipment to South Africa. Chinese labourers, the delegates affirm, can be obtained in unlimited numbers, as, especially in the vicinity of the coast towns, an enormous proportion of the population is practically unemployed, and the Chinese officials would only too gladly be relieved of a part of this encumbrance. In recruiting these coolie the Witwatersrand Native Labour Association anticipates that it will obtain the co-operation of British officials. In the Transvaal a Government Department would have to be instituted for the control of imported Chinese labour, and this department should be able to communicate direct with British Consulates in China, as the latter would be able to facilitate and hasten the emigration materially. British Consuls in China would also have to arrange for a strict medical examination of all Chinese recruited for the Transvaal, in order to ascertain the physical suitability of each emigrant. The delegates believe that the Chinese miner will be satisfied with a wage of 50s. per month, but opportunity of doing piecework should be given to the coolies; who would then be able to accomplish more work and earn a higher competence. As regards the commissariat arrangements, Mr. Skinner estimates the monthly requirements of each coolie at Hongkong as follows:—Rice, 45 lbs.; fish, 8 lbs.; pork, 8 lbs.; vegetables, 8 lbs.; tea, 1 lb.; oil, 1 oz. In view of the colder climate of the Witwatersrand, these quantities may have to be increased by 50 per cent. It has been calculated that the food of each coolie would work out at about 1s. per day, or possibly a trifling amount more. Mr. Skinner also believes that the Chinese will be satisfied with the accommodation as now provided for South African natives, but adds that new barracks for coolies should consist of several storeys. The floors would most probably have to be covered with cement or asphalt, and the rooms should be sub-divided into smaller cubicles than are at present allotted to the Kaffir miners. The cost of transport to the Witwatersrand, inclusive of the recruiting charges, is estimated at £10.10s. per man, and, as it is intended to provide for the return to China at the expiry of the three years' contract, a further sum of 26 p.p. man has to be allowed. The total outlay for recruiting and transport, therefore, amounts to £16.10s. or, calculated on the basis of a three years' contract, about 9s. per month for each labourer.

It is intended to grant each emigrant, before his departure, an advance of 50s. for the provision of suitable clothing, but this amount will be gradually deducted from his monthly wage. The next cost of each coolie would, on the basis of a monthly payment of 50s., amount to about 50s. per month, as much as is now paid to an efficient Kaffir miner.

The following is the summary of his report, given by Mr. Skinner:—

(1) Suitability of Chinese for labour on the mines.—I have stated above that, in my opinion, the better class of Chinese coolie will be suitable to supplement the Kaffir labour supply in the gold mines.

(2) Possibility of obtaining Chinese labour.—Sufficient Chinese labour can, in my opinion, be obtained to fulfil the present and immediate future requirements of the Rand.

(3) Time necessary for obtaining Chinese labour.—If the reports to China from the first Chinese labourers are favourable, I consider that it would only be a matter of months before the labour supply from China would begin to affect very appreciably the production of these fields.

I would say that, in making the statements I do in this report, I have never lost sight of the serious undertaking it is to bring into a country a large number of people of an alien race, whose whole idea of civilisation and manner of living is entirely at variance with that existing in the land they are brought into.

Now that the report by Mr. Skinner on his recent visit to the Far East in the matter of Chinese labour for the Rand has been published, it will be seen that it covers the ground in much the way that had been anticipated. It certainly shows that the Chinese miner will not be as cheap as many people had hoped for. Only on a three years' contract does he apparently come out at the same price as the native Kaffir labour, and Mr. Skinner says that three years is the shortest period over which the cost of bringing the coolie into the fields could be reasonably distributed. Besides he is to have free food, a nature agreeable and attractive to him, free housing and medical attendance, facilities for purchasing Chinese clothing and "religious material" at moderate prices, a free passage from and to China, with food provided, an advance before starting, and an undertaking given to return the coolie's bones to China should he die away from home. All of which requirements add up—L. & C. Express.

In the *Empire Review* for November, Mr. C. Kinnock, Cooke gives reasons why Asiatic labour is necessary for the Rand. In the first place he attributes much of the present financial depression to the fact that the Transvaal mines, owing to the lack of labour, are not working full speed. If they were, the gold output would be very different to what it is, to-day. He admits that if the native labour supply were sufficient, it would not be necessary to introduce the Asiatic. He asserts, however, that it is not sufficient. He gives a number of figures from which he deduces a net total of 4,672,230 natives, from among whom it may be possible to recruit labour. Of this number possibly one in sixteen of men between eighteen and twenty-six years of age could be induced to work continuously outside their own territories. This gives in round numbers a net total of 292,000 natives available for the mines, and for all the developments in South Africa. Moreover, the native African does not like underground employment. And, in view of the numerous openings for surface labour, Mr. Cooke ventures to think that but a very small portion of these two hundred and ninety-two thousand will sign on for twelve months at mining work. It does not, therefore, he says, require much knowledge of arithmetic to see that if the Rand mines are to be worked at full speed it cannot be done with native labour, for the simple but conclusive reason that the acquired supply cannot be obtained. He quotes numerous expert opinions to support this view. As to the restrictions to be placed on imported Asiatic labour it would, perhaps, he remarks, be rash to prophesy; but he adds it may safely be concluded that every care will be taken by the Commissioners to safeguard the vested interests of the white miner and the white trader. Further, says Mr. Cooke, it is mistake to suppose for one moment that the introduction of the Asiatic involves displacement of white labour; on the contrary, after a certain leeway is made up in the proportion of white to coloured labour, every seven Asiatics imported means employment for an additional white man. So, if 50,000 Chinese or Indians be brought over, at least 70,000 additional skilled white men would find employment. Finally, he argues that the introduction of Asiatic labour is highly necessary from the shareholders' point of view.

## SHIPPING AND MAILS.

MAILS DUE.  
Australian (*Chingta*) to-morrow.  
German (*Prins Heinrich*) to-morrow.  
German (*Kaichow*) 10th inst.  
American (*America*) 10th inst.  
Canadian (*Tartar*) 9th inst.  
Tacoma (*Victoria*) 13th inst.  
American (*Korea*) 14th inst.  
Canadian (*Empress of China*) 21st inst.  
American (*Castle*) 23rd inst.  
Australian (*Quail*) 27th inst.  
The N. P. S. Co.'s s.s. *Victoria* arrived at Yokohama on 4th inst.  
The T. K. S. s.s. *Rohilla Maru* left Manila yesterday, and is expected here to-morrow afternoon, the 8th inst.  
The C. N. Co.'s s.s. *Chingta* from Australian ports and Manila left Manila on 5th inst., and is expected to arrive here on 8th inst., at daylight.  
The C. N. Co.'s s.s. *Taiwan* from Australian ports via Manila left Sydney on 5th inst., and is expected to arrive here on 27th inst.  
The Imperial German Mail s.s. *Prinz Victoria* left Shanghai on Saturday, at 11 p.m., and may be expected here on Tuesday, at daylight.  
The Imperial German Mail s.s. *Kaichow*, carrying the German Mails, with dates from Berlin of the 10th ult., left Singapore on Saturday, at 9 a.m., and may be expected here on Thursday, at daylight.

THE Beer to drink in the tropics is the Beer made in the tropics—SAN MIGUEL.

## TELEGRAMS.

(Reuters.)

## British Cruiser Ashore.

London, 4th December.

The cruiser *Flora* is ashore on Denman Island, British Columbia, and is probably a total wreck; her stern is ten feet under water.

LATER.

The *Flora* was going full speed to the firing ground when, mistaking a beacon in thick weather, she ran on the rocks with tremendous force. There were no casualties, although the officers' quarters were immediately flooded.

The *Flora* is lying on an even keel, and there is no danger of her breaking in two. The damage done is apparently slight, but salvaging will be difficult. When the vessel is pumped out an effort will be made to heave her off the rocks.

## The American Cotton Market.

An announcement, estimating a shortage in the cotton crop, which is far below expectations, created the wildest excitement on the New York Cotton Exchange; brokers fought each other in their eagerness and prices shot up ten and twenty points. At New Orleans fortunes were made and lost within five minutes.

LATER.

The advance in American Cotton has caused the most intense excitement in Manchester and Liverpool, and it is considered to be a terrible calamity for Lancashire, if the American estimate is correct.

## The Chilean Battleships.

The Chilean battleships the *Libertad* and *Constitution*, just purchased by the British, were built by the Vickers Maximo Co. and Armstrongs respectively, and for their size are the most powerful ships afloat.

## Russia in Asia.

December 5th.

The *Standard* says that if the encroachments of Russia are to be stopped, now is the time to do it, when Japan can deal a blow effectively, but no friend of Japan can contemplate a collision without the deepest solicitude and sorrow. Whatever her present vulnerability may be Russia has almost inexhaustible reserves and may expect to recover hereafter whatever she is temporarily compelled to forego.

(Der Ostasiatische Lloyd.)

## The Health of The Kaiser.

Berlin, 30th Nov.

The health of H. M. the Emperor is making very favourable progress. It causes some surprise here that the foreign press, which at first showed much sympathy with the sick Emperor, now continually spreads alarming reports about the Kaiser's condition, which are absolutely baseless. This is the case especially in France and England.

## Russia's Reason For The Re-occupation of Mukden.

The Russian government has notified the other Powers that the re-occupation of Mukden by Russian soldiers was the answer to the refusal of China to discharge a Tiao-tai who was unfriendly to the Russian residents at Mukden.

## Expedition to Tibet.

The British expedition to Tibet in announced from London to be necessitated by local difficulties on the frontier made by the Tibetans. It is not expected that any warlike operations will be needed.

## Successor to Bishop Anzer.

The appointment of a successor to the late Bishop Anzer of South Shantung is causing some difficulty, as the proper man for the place cannot be found. The reception which Bishop Anzer had in Rome by the Pope, as well as by the Secretary of State and the Prefect of the Propaganda, was exceedingly hearty, and has shown the great consideration in which he was held by the Vatican.

## FIRE AT KOWLOON POLICE STATION.

Police Sergt. Gordon, returned to his quarters at old Kowloon City just in the nick of time on Sunday morning, and succeeded in putting out a fire which, at one time, threatened to destroy the police station. It seems that he had been over to Victoria, and when he reached the station, he found his quarters on fire, three of the rooms, situated on the top floor, being badly burned and damage done to the extent of about \$400, \$200 of which included the sergeants' personal property, such as clothing, two gold brooches, gold watch, chest of drawers and \$60 worth of notes. It is supposed that, while a small dog and the cat were at play, they overturned a kerosene lamp, which had been standing on the dressing table.

## BRITISH AND CHINESE CORPORATION, LTD.

To the shareholders of the British and Chinese Corporation, at the annual meeting, Mr. W. Keswick, M.P., was able to give a more cheerful statement of work done than has fallen to him to make during the last year or two. For three years matters in China in the way of new enterprises have not progressed very rapidly, and this has led to various charges against the Corporation, to which Mr. Keswick briefly alluded. All arrangements, for instance, had been made in 1898, when the preliminary contract for the Shanghai-Nanking line had been signed, to push on with the work. This and other matters were, however, arrested by the Boxer outbreak, and it was some time after that affair before the Chinese Government could resume the negotiations. It may be that other Government-backed enterprises have gone on faster, but with them there is not the same difficulty in getting money. For the enterprises of the Corporation the necessary funds have to be obtained in the open market, and the most severe critic will scarcely aver that the times have been quite propitious to launching such schemes to the public—L. & C. Esgrin.

## LEGISLATIVE COUNCIL.

A meeting of the Legislative Council was held, this afternoon, in the Council Chamber. Present: His Excellency the Officer Administering the Government F. H. May, C.M.G., Hon. A. M. Thomson, (Acting Colonial Secretary), Hon. Sir Henry Spencer Berkeley, Kt. (Attorney-General), I. A. M. Johnston (Acting Colonial Treasurer), Hon. Basil Taylor, R.N. (Acting Harbour Master), Hon. W. Chatham, (Director of Public Works), Hon. Dr. J. M. Atkinson (Principal, Civil Medical Officer), Hon. Sir C. P. Chater, C.M.G., Hon. Dr. Ho Kai, C.M.G., Hon. Wei Yuk, Hon. Gershon Stewart, Mr. R. F. Johnston (Acting Clerk of Councils).

## MINUTES.

The minutes of the previous meeting were read and confirmed.

## FINANCIAL.

The Acting Colonial Secretary laid on the table Financial Minutes (Nos. 60 to 64) and moved that they be referred to the Finance Committee.

The Acting Colonial Treasurer seconded, and the motion was agreed to.

The Acting Colonial Secretary laid on the table the report of the Finance Committee (No. 11) and moved its adoption.

The Acting Colonial Treasurer seconded, and the motion was carried.

## PUBLIC WORKS COMMITTEE.

The Director of Public Works brought up the following report of the Public Works Committee at a meeting held on the 19th ult.

*Officers' Quarters, Land Office and Police Court at Tai Po.*

The chairman explained that it was considered necessary to construct permanent buildings at Tai Po for the accommodation of the officers stationed there and for a Land Office and Police Court. The plan, which he submitted, showed two 2-storied buildings—one to contain the quarters, to be erected on the small island where the landing place is situated, and the other, to contain the Land Office and Police Court, on the mainland in the vicinity of the Police Station.

The estimated cost was as follows:—  
Quarters, including servants' accommodation and stable, approach path, &c., \$24,500  
Land Office and Police Court, 31,000

Total, \$55,500

It was unanimously agreed to recommend that both buildings be proceeded with.

## City Water Works Extension—Tytam Tuk Scheme. (C. S. O. 8193/1903.)

The Chairman laid before the committee a general plan, dated the 17th October, 1903, showing the works which it was proposed to undertake at once and which would form the first section of the scheme. He explained that the result of the last trial-well sunk on the site of the proposed large dam had been disappointing, the rock being found at a depth of about 60 feet instead of about 40 to 45 feet as indicated by all the previous trial wells. It was therefore necessary to conduct further trial wells both on the site and on others in the vicinity with the view of ascertaining whether a more favourable line could be found for the dam, and as it was evident that some very considerable period must elapse before this part of the scheme could be sufficiently advanced to be available for increasing the supply of water, it was considered advisable to proceed at once with a dam of moderate dimensions and capacity some distance up the valley.

It was therefore proposed to construct a dam on the site which was referred to in Mr. Cooper's report of the 9th May, 1896, as No. 4, but to increase the size of it so as to render it capable of containing 194 million gallons instead of 100 millions as specified in his report. Two pumping engines, each capable of raising 14 million gallons daily, had already been ordered, and the proposed dam would afford a supply about sufficient to keep one engine steadily at work during the dry season. The second engine was intended as a duplicate, to be brought into service when the other was stopped for overhaul and repairs. In addition to the water impounded by the proposed dam the yield of the streams flowing in the valley would be rendered available by the small dam which had already been constructed in connection with the temporary pumping engine now at work and from which the main to the large pumping engines would be laid.

The other items required to complete the first section of the scheme included the following:—

- (i) The construction of a pumping station near the head of Tytam Bay to contain the two pumping engines already mentioned.
- (ii) The construction of a new road contouring the lower part of the valley at an elevation of 130 to 150 feet above Ordnance datum and then ascending to join the existing road near the new Byewash Reservoir.
- (iii) The laying of a suction main from the small dam mentioned above to the permanent pumping station referred to in (i).
- (iv) The laying of a rising main from the permanent pumping station by way of the new road to the gauge basin at the entrance to the Tytam Tunnel.

The whole of the proposed works had been designed with a view to the completion of the scheme at a later date by the construction of the large dam already mentioned with the requisite catchwaters to intercept additional drainage areas and erection of the necessary additional pumping plant, when the section main referred to in (ii) would be taken up and laid as a duplicate rising main. The reservoir now proposed would not be overlapped by the large one to be constructed hereafter and would therefore be of permanent benefit for storage purposes.

The estimated cost of the works included in the first section was as follows:—  
Dam to impound 194 million gallons, \$290,000  
Construction of pumping station, including formation of site, 50,000  
New road from junction with Stanley Road to near Tytam Byewash Reservoir (length 1.40 miles), 98,000  
Access roads to pumping station and Gauge Basin and track for temporary suction main, 20,000  
Rising main, 18" diameter, from pumping station to Tytam Gauge Basin (length 2.82 miles), 93,000  
Suction main, 18" diameter, to be subsequently used for duplicating rising main (length 1.25 miles), 60,000  
Pumping machinery already ordered (two sets of engines, each capable of delivering 14 million gallons per day) including erection, 108,000  
Contingencies, say, 50,000  
Total, \$780,000

The works required to complete the entire Tytam Tuk Scheme, for which it was not possible to submit an estimate at present, would be as follows:—

1. The construction of a large dam below Tytam Tuk village, with the necessary road diversions.
2. An extension of the pumping station buildings.
3. The provision of additional pumping plant.
4. Taking up the 18" suction main and relaying same as a rising main, including the necessary length of piping to complete same.
5. The construction of catchwaters to such extent as may be found advisable in order to render available the water from areas situated outside the natural drainage area.

The Committee unanimously agreed to recommend that the scheme be at once proceeded with.

## Establishment of a Convict Prison on Stonecutters Island.

Replies to the Committee's inquiries as to the amount which the Military Authorities would be prepared to contribute in the event of the Gunpowder Depot being removed from Stonecutters Island as proposed, and

(a) the proposal to erect a convict prison there being carried out,

(b) the proposal to erect a convict prison there being abandoned,

were furnished. They were to the effect that, in the case of (a), the Military Authorities would contribute nothing, and in the case of (b), they were prepared to contribute £2,500 on condition that the site and buildings on it were handed over to them. This offer had been declined by His Excellency the Governor. The question of erecting a prison on Stonecutters Island was then discussed, and it was ultimately agreed unanimously to recommend that the work be proceeded with as early as practicable.

The Committee then adjourned.

## AMENDMENT OF BYE-LAWS.

The Acting Colonial Secretary moved that the words "by a duly registered nightsoil carrier" be deleted from bye-law No. 2 of the bye-laws under the heading "Domestic Cleanliness and Ventilation" contained in Schedule B of The Public Health and Building Ordinance, 1903.

The Director of Public Works seconded, and the motion was carried.

## QUESTIONS.

[We regret our inability to print in this issue the replies of the Government to the questions put by the Hon. Sir Paul Chater, on behalf of the member for the Chamber of Commerce, and published in our columns on Friday. They were answered by the Acting Colonial Secretary and the Director of Public Works shortly after the commencement of the business, at three o'clock, and for some inexplicable reason the copies of the printed replies were not handed over to the reporters until nearly an hour and a half later. Had the reporters been in possession of the papers soon after they were read and dealt with by the printers before the close of the proceedings, and in time for this issue. The Press works under many difficulties in the Colony which do not exist at home, and it is a matter for regret that such a lapsus should occur, creating obstructions in the way of reporters attending a meeting of such importance.]

## NEW TERRITORIES TITLES ORDINANCE.

The Attorney General moved the second reading of the Bill entitled An Ordinance to repeal the New Territories Titles Ordinance, (1902).

The Acting Colonial Secretary seconded. Bill read a second and third times, and passed.

## NEW TERRITORIES LAND COURT ORDINANCE.

The Attorney General moved the second reading of the Bill entitled An Ordinance to further amend The New Territories Land Court Ordinance, 1900.

The Acting Colonial Secretary seconded. Bill read a second and third times, and passed.

## PUBLIC HEALTH ORDINANCE.

The Attorney General moved the second reading of the Bill entitled An Ordinance to amend The Public Health and Buildings Ordinance, 1903.

The Acting Colonial Secretary seconded, and said it was not proposed to press clause 3 through Committee that day. It would be further considered, and he hoped unofficial members would not oppose the reading of the bill.

Bill read a second time.

## COMMITTEE.

At the request of Sir Paul Chater the Council postponed, until the attendance of the Hon. Pollock, the Bill entitled An Ordinance to provide for the Recovery of Charges incurred by the Colony on account of certain undesirable persons introduced into the Colony.

## SHELTER FROM TYPHOONS.

The Hon. Gershon Stewart, with the permission of H.E., asked leave to move the following resolution at the next meeting of the Council: "That in the opinion of this Council it is advisable to increase the means of shelter for cargo boats and sampans during the typhoon season."

The Council adjourned.

## FINANCE COMMITTEE.

A meeting of the Finance Committee was held immediately after the Council, Hon. A. M. Thomson, Acting Colonial Secretary, presiding.

The following votes were submitted and the Committee agreed to recommend that they be adopted by the Council:—

## POST OFFICE.

A sum of \$28,750 in aid of the vote Post Office, under other charges, for the following items:—  
(1) Cost of stamps, \$8,000  
(2) Contribution to mail subsidy, 5,250  
(3) Transit charges, 15,500  
\$28,750

## THE REVISED EDITION OF ORDINANCES.

A sum of \$4,000 in aid of the vote miscellaneous services, printing, as a first instalment of the cost of the revised edition of Ordinances.

## LAND REGISTRY OFFICE.

A sum of \$50 in aid of the vote Land Registry Office for the following:—  
For New Territories—Personal emoluments.

Assistant Land Office, 11th November to 31st December, \$500  
Do. Exchange compensation, 400  
Other charges, 500  
Travelling allowance to Assistant Land Officer, 50  
Total, \$950

**POLICE.**  
A sum of \$1,300 in aid of the vote police, under charges for the item repairs of launches, and boats.

A sum of \$85,600 in aid of the votes public works, annually recurrent, and public works, extraordinary, for the following items:—

**Public Works, Annually Recurrent.**  
Maintenance of buildings, \$8,300  
" of telegraphs, 2,700  
" in New Territory, 600  
Miscellaneous works, 13,500  
Maintenance of roads in city, 5,500  
" outside city, 2,000  
" in Kowloon, 4,100  
" elsewhere, nullahs, &c., 1,500  
Miscellaneous services, 2,500  
Gas lighting, city of Victoria, 2,500  
Extensions of gas lighting, 300  
Drainage works, miscellaneous, 18,700  
Maintenance of water-works, city and hill district, 13,500  
Total, \$72,900

**Public Works, Extraordinary.**  
Public bath-house, Cross Lane, Whampoa, 500  
Public latrines and urinals, 3,500  
Rain-storm damage, 8,700  
Total, \$12,700

**SECRET SERVICE.**  
A sum of \$1,000 in aid of the vote police under other charges, for the item, Secret Service.  
This was all the business.

## MASONIC INSTALLATION.

Quite a large gathering of masons and friends enjoyed a capital entertainment given by a variety troupe from H.M.S. *Tamar* at the Masonic Hall last Saturday, on the occasion of the installation, by Deputy Grand Master E. C. Ray, of the R. W. M. and officers of the Naval and Military Lodge, No. 848, S.C. The officers for the year were elected as follows: Right-Worshipful Master, Wor. Bro. P. D. Hyett; Immediate Past Master, Wor. Bro. W. E. Claret; Deputy Master, Wor. Bro. F. Howell; Wor. Senior Warden, Bro. F. Last; Secretary, Wor. Bro. H. Horley; Senior Deacon, Bro. E. Day; Organist, Bro. W. Crabury; D. of C., Bro. R. J. Allwork; Steward, Bro. J. East; W.J.W., Bro. P. Jackson; Treasurer, Bro. J. Blake; Junior Deacon, Bro. J. W. Wiltshire; Chaplain, Bro. R. M. Healy; Junior Guard, Bro. A. W. Hill; Tyler, Bro. J. Vanstone.

Following the installation, a supper, supplied by Ying Kee, was served in the large hall, nearly 200 persons partaking of the meal. The entertainment was then commenced and was thoroughly enjoyed by all present. Those contributing to the programme included Messrs. C. Beaumont, A. Jack, T. Stevenson, T. Hoskin, P. Jackson, T. Mitchell, T. Armitage. The orchestra composed of Messrs. Maclean, Jenkins and Whitty gave several selections during the evening, and the entertainment concluded with a "silent absurdity" entitled *The Rival Lovers*, the cast consisting of Messrs. T. Armitage, A. Jack, T. Jago and T. Stevenson. Next Saturday an installation and banquet will be held in the Masonic Hall in connection with Lodge St. John No. 618 s.c.

## COMMERCIAL.

Latest intelligence from Shanghai (1st inst.), reports business done—North China Insurances at Tls. 220. Shanghai and Hongkong Wharfs at Tls. 212. Indo-Chinas at Tls. 54 for March. Farnham, Boyds at Tls. 130 for March. December and Tls. 130 for March. Oriental Consolidation Gold Mining Co. at \$14. Gold. Maestris at Tls. 310 cash, Tls. 315 for December. Tls. 325/30/327 for March and Tls. 332 1/2 May. China Flour at Tls. 75.

## FREIGHT.

In their circular, dated 5th inst., Messrs. Lamke and Rogge state:—  
Freights continue extremely dull. The same as when last writing, there are handy-sized steamers here and in neighbouring ports quite unable to obtain paying employment. Inquiries after tonnage there were and are few, and all at starvation rates. Chartering actually resulted since last circular does not amount to the volume even of the preceding fortnight's business.

From Saigon to this, there is nothing done. Saigon to Philippines the same. An occasional inquiry Saigon to 1 port N.C. Java, prompt was filed by a boat at 21 cents. Stocks of old grain at Saigon, as lately referred to, have since been reported to have been practically all disposed of to meet a demand from France.

The growing crop, it is asserted, continues a promising one, but before next month at the very earliest, no new grain will be available.

There is nothing doing from Bangkok for outsiders. From the Yangtze ports, liners do a small trade. A fiscal boat is reported to have secured a freight Wuhu and Chingkiang to Canton on liners' terms on basis of 15 cabbareens for rice, but though there are others willing to accept similar conditions, further business is apparently not practicable.

From Java to this, there have been several charters all for dry cargo for local refineries' account, of which the details are not reported except in two instances as per list of settlements, the rates being 30 cents and 164 cents. Demand for Java-Japan continues, as offers made for large size boats at about 274 cents have not proved tempting.

From Hongkong, only fixture reported is of a small boat to this port, as low as 90 cents per ton.

Japan coal freights have had business from Moji to this port at \$1.75 and \$1.70, to Singapore at \$2.00 and under, whilst for Karatsu loading about \$1.80 has been done for Hongkong, and a small boat got \$2.15 for Singapore.

At the close there is no more demand. Casually, a German *Arnold-Luxton*, for several years one of the regular China-coast traders, was burnt at Singapore, and off Footscray, whilst en route from Adelaide to Hongkong to Tientsin with a cargo of cast oil.

Sailers—American bark *Lilliborne* was sold at auction on 21st ultimo for \$8,000. At for charter, the only fixture reported is of Italian bark *Lethair* for another voyage

hence to Callao, \$1,300 in full, fixed in Callao. There is a demand for another vessel in a like direction for February/March loading. Nothing else appears to be wanted just at present.  
Sail-tonnage loading or to load. For Baltimore and New York.  
British bark *Brilliant* arrived 24th October.  
For New York:—
